

TruBend Series 8000

Do you need a machine? Now?

Three TruBend Series 8000 machines are looking for a new home. And because it's INTECH, we will give you a bending tool package in the value of 10,000 EUR for free!

Promotion details:

Content: When purchasing one of the three available bending machines (pto), you will receive bending tools in the value of 10,000 EUR* for free!

Validity: This offer is available for orders received by April 5th, 2019.
Only while stocks last.

TruBend 8230 (040)

230 t press force and a bending length of 4 m

Configuration:

- Working length: 4050 mm
- Stroke: 500 mm
- Usable open height: 675 mm
- CNC-controlled wedge crowning with point-based adjustability (max. 3000 kN/m)
- 5-axis backgauge
- 2 additional backgauge fingers
- TRUMPF hydraulic upper / lower tool clamp 3000 kN/m
- T8000T multi-touch 3D machine control
- Interface Remote Support
- Additional operating unit with foot switches
- MobileControl
- Rear work area illumination
- 2 bending aids (150 kg) with table extensions
- Parking positions (left / right, 550 mm each)
- BendGuard

TruBend 8230 (040)

230 t press force and a bending length of 4 m

Configuration:

- Working length: 4050 mm
- Stroke: 500 mm
- Usable open height: 675 mm
- CNC-controlled wedge crowning with point-based adjustability (max. 3000 kN/m)
- 4-axis backgauge
- TRUMPF hydraulic upper / lower tool clamp 3000 kN/m
- T8000T multi-touch 3D machine control
- DXF Import
- Interface Remote Support
- 2 bending aids (150 kg)
- Parking positions (left / right, 350 mm each)
- BendGuard

TruBend 8400 (040)

400 t press force and a bending length of 4 m

Configuration:

- Working length: 4050 mm
- Stroke: 500 mm
- Usable open height: 675 mm
- CNC-controlled wedge crowning with point-based adjustability (max. 3000 kN/m)
- 4-axis backgauge
- TRUMPF hydraulic upper / lower tool clamp 3000 kN/m
- T8000T multi-touch 3D machine control
- DXF Import
- Interface Remote Support
- Retrofit option for LCB for 3 years after delivery
- 2 bending aids (150 kg)
- Parking positions (left / right, 550 mm each)
- BendGuard

Your benefits

■ Machines ready to be shipped!

All three machines are ready to be shipped within 48 hours.

■ Free bending tools!

Bending tools in the value of 10,000 EUR* will be added free of charge.

■ TecZone Bend ready!

All three machines can be programmed with the offline programming system TecZone Bend (standalone).
